

Sunburn

You stayed too long in the Sun. It injures your DNA. Please move 3 fields backwards.

*Solar irradiation can generate many tiny irreparable mutations in the cell.
Please be careful.

Lactose

Through a helpful mutation, you are able to use Lactose, which is inside of milk-products.

Stronger cell membrane

By chance, you gained a stronger cell membrane, now you more powerful and protected against attacks.

You are better armed for a fight against a player, reach a 3, 4, 5 or a 6 with the dice to win in a battle against a player.

*if your rival got the same mutation, the rules stay like without a mutation.

Increased ingestion

By luck, you are able to absorb more nourishment.

If you reach a fatigue field, you don't have to move backwards.

Loss of Evolution card

Oh nooo! Mutations can create a loss of important functions.
You lose your last Evolution card.

Lactose

Through a helpful mutation, you are able to use Lactose, which is inside of milk-products.

Stronger cell membrane

By chance, you gained a stronger cell membrane, now you are more powerful and protected against attacks.
You are better armed for a fight against a player, reach a 3, 4, 5 or a 6 with the dice to win in a battle against a player.
*if your rival got the same mutation, the rules stay like without a mutation.

Increased ingestion

By luck, you are able to absorb more nourishment.
If you reach a fatigue field, you don't have to move backwards.
